OBJECTIVE:

Motivated and detail-oriented Junior Software Engineer with a strong academic foundation in full-stack development, object-oriented programming, and database systems. Skilled in collaborative problem-solving and building user-centered applications through practical coursework and independent projects. Eager to contribute to an innovative development team by applying technical skills to create impactful software solutions while continuing to grow in a forward-thinking and inclusive professional environment.

EDUCATION:

Johnson County Community College

A.A.S in Computer Information Systems — Expected Graduation: August 2027

GPA: 3.86 / 4.00 | Dean's List

- **Relevant Coursework:** Programming Fundamentals, Object-Oriented Programming, Data Structures and Algorithms, HTML, CSS, JavaScript, Database Management Systems (SQL), System Design and Analysis, Application Development, Unix/Linux Scripting, Computer Networking Fundamentals, Statistics, and Discrete Structures.

CERTIFICATIONS:

- **Python Certificate** – Codedex, Aug 2024
- **HTML Certificate** – Codedex, Jun 2025

SKILLS:

- **Programming Languages:** Python, C++, JavaScript
- **Web Technologies:** HTML5, CSS3, JavaScript, Responsive Design, Accessibility Standards (ADA)
- **Database Management:** SQL, MySQL, Data Modeling
- **Networking & Systems:** Basic TCP/IP, UNIX/Linux Scripting, Network Troubleshooting
- **Software & Tools:** Visual Studio Code, Git, GitHub, Agile Collaboration
- **Professional:** Communication, Customer Service, Technical Support, Teamwork, Workflow Management, Bilingual

PROJECTS:

- **Web Cassette Player** | Codedex Hackathon — Dec 2023
 - Developed a fully functional web-based cassette player using HTML5, CSS3, and Python Flask
 - Engineered backend logic for audio playback, volume control, display toggles, and routing mechanisms
 - Collaborated using Git and GitHub to manage version control in a team development setting
 - Applied principles of responsive design and user experience (UX) best practices
- **Personal Pay Distributor** | Personal Project — Aug 2023
 - Designed and implemented a bi-weekly budgeting application using Python
 - Utilized file handling for local data storage and budget allocation automation
- **Portfolio Website** | Personal Project — Mar 2024
 - Designed and deployed a personal portfolio using HTML5 and CSS3 with ADA-compliant accessibility features
 - Integrated semantic structure, responsive design, and optimized metadata for SEO and performance
 - Demonstrated front-end development skills and personal branding

EXPERIENCE

- **Codedex** | Hackathon — New York, NY — Dec 2023
 - Created a user-friendly web application with a focus on clean design and backend logic integration
 - Collaborated within a team environment, participating in agile workflow and rapid prototyping
- **Lead Barista** | Crows Coffee LLC — Kansas City, MO — Dec 2022 – Present
 - Supervised daily operations to ensure service quality and safety standards
 - Managed POS transactions and customer orders efficiently
 - Resolved customer concerns professionally, contributing to a positive customer experience
- **Barista** | Martin City Coffee — Kansas City, MO — Jan 2022 – Dec 2022
 - Performed front-of-house duties including drive-through and lobby service
 - Maintained cleanliness and workflow organization in a fast-paced environment
 - Delivered excellent customer service with professionalism and empathy

ACTIVITIES AND LEADERSHIP

- Active club member of Codedex
 - Participates in coding challenges, workshops, and peer development sessions
